

Mrs Hartig Grade 6/7 Class Newsletter

Authors: Shaan and Josh :)

What your children have learned this month

Your child has learned about prime, composite numbers, factors, multiples, exponents (grade 7) and B.E.D.M.A.S in math. In science the grade 6s are working on Diversities of Living Things and the grade 7s are working on Pure Substances and Mixtures. In Drama/Dance we are working on Line Dancing in groups of 4 or 5. In The Arts we will be picking a new artist and working on recorders and drums.

Great things about our students!

The students showed undeniably good behavior and it is still getting better which is hard to do with this good class but they can still do it because they are very well trained by their parents!
THANK YOU :D

We will have a fun year this year!

Highlights of September

In September, the grade 6/7 class had a wonderful time! We had an amazing first day of school with a properly behaved class. What really amazed us was how we got the class to speak french for their class needs ex: “est-ce que je peux tailler mon crayon?” (can I sharpen my pencil?) We had an amazing Tea time where we had to bring in our own mugs. The whole class brought in their own mugs without forgetting which we are very proud of! The class had their first three french tests and there will be more every week! We will be aiming to have one french test a week!

Our New Students

Our new student in our class “Chris” is an amazing kid. Chris comes from Central School. He is incredibly kind and full of joy. We give a big welcome to Chris and we all will have a fun year! We also have another great student in our class too, “Keelin.” Keelin comes from Sarnia. She has a younger brother. She came from ArolRoad School. She is in grade 6! We all give Keelin a very warm welcome to Smith!

Mr. Madill interview

This year the grades 6/7 and the rest of the school got a new principal, Mr.Madill. Shaan and I, Josh, were lucky to have gotten an interview with our new principal. Here are some of the questions we asked. “Where did you teach before Smith?”

“ I was a teacher at Prince of Wales, a vice principal at Greendale, vice principal at Prince Philip, and a principal at Battlefield school.”

“ If you could say something to the parents what would it be?”

He responded, “ parents should be proud of their children because our class is off to a fantastic start.”“If you could say something to students, what would it be?”, he tells us to keep up our good work.
